CCPAAbout Search ResultsO search resultsYP - Real Yellow PagesSM - helps you find the right local businesses to suit your specific needs. Search results are sorted by a combination of factors that give you a set of options in response to search criteria. These factors are similar to those you can use to determine which business to choose from from the on-premises Yellow Pages directory, including proximity to where you're looking, expertise in the specific services or products you need, and comprehensive business information to help you evaluate your business suitability. Preferred listings or lists with recommended website buttons indicate YP advertisers who directly provide information about their businesses to help consumers make more informed purchasing decisions. Access service advertisers get a higher ranking in the default search results order and can appear in sponsored listings at the top, side, or bottom of the search results page.
